P R E F A C E

Over two thousand plays are included in this supplement, in addition to the great number of duplicates that appear in more than one volume.

The number of one-act play collections available was disappointing. It would seem as though that medium of literary expression does not attract the number of writers it formerly did. However, we are fortunate that some of the earlier classic writers in the field have been reprinted in collections with a later copy-right date, and are included in this supplement.

In the past, many one-act plays were written by outstanding authors as well as good craftsmen. The form was right for the unities of time, place and mood. The very shortness of the material as it treats a single incident or event lent itself to that unity. Such plays as "The Riders to the Sea", and many others provided a rich emotional experience.

Not many of the very recent plays observe the unities. They are influenced by television and the movie. Scenes are shifted from one place to another with rapidity, with little dialogue in each. This scene shifting takes away from the impression as a whole.

As always, there is a preponderance of plays for children. These are mostly on the subjects of Christmas, fairies, holidays, and the great characters in American history. Recently more plays have been written for the junior level. The subjects treated are mostly those also written for children with the addition of a few concerned with the special interests of the teen-agers. For both children and young people there are now a great number of plays that can be performed without royalty.

Scenes from well-known three-act plays have been made into one-act plays. The selection of a scene may not answer the criteria of a one-act play, but since they do so in form and content, they were included.

There are also a number of adaptations of novels. Scenes have been made into one-act plays. In this, it is much like what happened to the three-act plays. Since outstanding books were used, they enrich the field, and add variety to it.

Foreign writers are represented in this supplement. Here also, there are fewer one-act plays than formerly. The question may be asked whether the seeming lack of interest is not a general trend.

Play Magazine has contributed a great number of plays to this supplement. These are for children, and young people. Some of them have appeared before in collections, or as separates.

Both for radio, and television, there is a dearth of one-act plays that can be identified as such. This is especially true of television where one might expect to find a wealth of material in a relatively new field. However, this is not the case. Such plays as are available have been influenced by the screen technique, and are, in form not one-act plays. No matter how broad the basis for selection might be — few could be included.

A survey of the field of the one-act play would indicate that it is not as prolific as formerly. Few collections were published then in a comparable period.

I wish to thank the Library of Congress, and the Public Libraries in various cities for the opportunity of examining their drama collection, and for providing the facilities for me to analyze the material I found suitable for this purpose.

August 1, 1957.

Hannah Logasa.

HOW TO USE THIS INDEX

The Key is the bibliographical identification of a play. Key letters refer to the book in which the play may be found; if a pamphlet separate, to the publisher responsible for its publication; to the magazine in which the play appeared.

The Title Index contains full information about each individual play, whether it is a radio, or television play; author; number and kind of characters; setting or background, — suitability for elementary, or high school pupils — followed by the key letters which show where the play is to be found.

Refer to the title index from the author, subject, and collections sections.

ABBREVIATIONS

Adapt.	Adaptor, adaptation
Ann.	Announcer
b.	Boy character
c.	Suitable for children
Char.	Characters
com.	Comedy
Comp.	Compiler
ed.	Edited
ext.	Extras
g.	Girl character
Int.	Interior
J.	Juvenile
m.	Men characters
Nar.	Narrator
n.d.	No date
n-r.	Non royalty
r.	Radio
rm.	Room
Sc.	Scene
t.	Television
V.	Voices
w.	Women characters
